

EPPM2022 – Athens, Greece, 12-14 October 2022

12th International Conference on Engineering, Project, and Production Management (EPPM2022)

<http://eppm2022.view.gr>

Conference Aims & Scope

The conference is interdisciplinary in nature providing a forum for researchers, engineers, managers, students and practitioners to present and discuss current and emerging research issues, problems, questions, findings, and new developments in engineering management, project management and production management (EPPM) mainly in the construction, transportation, automobile and manufacturing sectors. It also hosts theoretical discussions, data analysis, case studies, and industrial practices. It is a great opportunity for interdisciplinary research and industrial networking at local and international levels.

Previous EPPM conferences have been organized in Germany, South Africa, Jordan, Poland, Australia, Thailand, UK, Singapore and Taiwan since 2010. The EPPM conference has been indexed in SCOPUS since 2016.

The conference is organized around three streams:

- A. **Research Stream** in which papers after double-blind peer-review will be considered for publication in the **Journal of Engineering, Project, and Production Management** (Scopus and Ei Compendex indexed).
- B. **Practice Stream** in which papers after review of the abstract will be considered for oral presentation at the Conference. The main idea is to bring industrial issues to stimulate academic solutions and vice versa help practitioners build up systematic approaches. Also, case studies and practical achievements will be considered. It is the aim of the EPPM conferences to connect academics and practitioners.
- C. **Academy Stream** in which papers after review of the abstract will be considered for poster or oral presentation. In this Stream mature academics may present findings of their research programs and graduate students may present their research ideas. Both poster and oral sessions will be organized to allow reflection with a panel of experts in the field.

A **Best Paper Award** will be given to the best paper presented at the conference.

All papers, industrial presentations and posters should initially submit an abstract following the conference abstract template in the online submission system. More information is available at: <http://view.gr/eppm/submission.htm>

Expected Audience and Call for Papers

Academics, researchers, students, industrialists, professionals, policy makers, funding bodies concerned with EPPM are encouraged to participate and contribute with their knowledge and experience to the conference.

The Conference topics include all areas of engineering, project, and production management including (but not limited to):

- Leadership
- Project, production & Program management
- Logistics
- Lean production
- Agile manufacturing
- Scheduling, Cost Analyses & Control

- Project delivery models
- Partnerships for sustainable development
- Productivity management
- Green management & technologies
- Circular economy
- Sustainable design & production
- Value Engineering
- Cultural & Ethical Issues
- Contract management & Legal issues
- International issues in production
- CAD/CAM integration
- 3D printing and additive manufacturing
- Automation and robotics
- Unmanned Aerial Vehicle (UAV)
- Internet of Things (IoT)
- Building Information Modeling (BIM)
- Big Data, Artificial Intelligence, and Deep Learning
- Virtual/Augmented/Mixed Reality technologies
- Simulation and modeling
- Safety Management & Work conditions

Papers can be presentation of research results, case studies, best practices and technology developments.

Conference Committee

Conference Chair: John-Paris Pantouvakis, National Technical University of Athens, Greece, e-mail: jpp@central.ntua.gr

Scientific Committee Chair: Kriengsak Panuwatwanich, Sirindhorn International Institute of Technology, Thammasat University, Thailand, e-mail: kriengsak@siit.tu.ac.th

Scientific Committee Co-Chairs: James Rotimi, Massey University, New Zealand & Sherif Mostafa, Griffith University, Australia

International Organizing Committee Chair: Chien-Ho Ko, University of Kansas, USA, e-mail: chko@ku.edu

President of EPPM-Association: Hesham S. Ahmad, Al-Zaytoonah University of Jordan, Jordan, e-mail: h.rabayah@zuj.edu.jo

International Scientific Committee A number of renowned experts around the globe serve in the Conference Scientific Committee. Details are available at the conference website <http://view.gr/eppm/committees.htm>

Important Dates

Submission of Abstracts: 28-Mar-2022-Extended to-11 Apr 2022
Submission of full papers: 23 May 2022
Acceptance: 15 July 2022
Submission of final camera-ready full paper: 25 July 2022
Early bird deadline for registration: 25 July 2022

Registration

Early Bird Registration fee: 450 Euro (before 25 July 2022)
Early Bird Full Time Students: 150 Euro (before 25 July 2022)
Additional information is available at the Conference Website.

Additional Information & Contact Details

Additional information is available at the conference website <http://eppm2022.view.gr> or via e-mail: eppm2022@view.gr
